Hi Matt,

Can you review the adequacy of NGC's 2-page Passive Sub Slab Depressurization System Operation and Maintenance Plan with attachments? The O&M Plan was submitted per EPA's attached request and to address the 2019 EPA Five Year Review Report recommendation to incorporate "long-term stewardship measures for the current vapor mitigation measures in place."

Thank you,
Michael

Good evening,

Attached for your records is the Passive Sub-Slab Depressurization System Operation and Maintenance Plan. Please let us know if you have any questions or would like to discuss.

Thank you,

Holly Holbrook
